

High School Sponsor Child

Christian Children's Fund of Canada

For almost forty years CCFC has been reaching out to help children, families and communities of all faiths around the world.

Compassionate Canadians through CCFC's sponsorship program are currently sponsoring more than 30,000 children. Sponsorship programs, such as the one our school is participating in, provides food, clothing, education, and medical care for children and their families. BCCA's participation in the sponsorship program benefits the child, family, and the entire community. CCFC is committed to these families and works toward providing long term solutions and promoting self-reliance. Without sponsorship, many of these children would not be alive today or have much hope of a better future.

- Our High School students (grades 8-12) are sponsoring a grade 6 girl from Sri Lanka. She belongs to a Christian family and has a brother and sister. She enjoys music, loves to sing, and does well in school, especially in English, Math and Social Studies. She and her brother ride a bicycle to school. She would like to be a doctor after she completes her studies.

Through our sponsorship, our sponsor child will have the opportunity to receive the education she desperately needs to make her dreams come true.
