

"Equipping students to
impact the world for Jesus"

Guatemala Mission Trip 2009

10-day missions trip to Guatemala (March 6 to 16, 2009).

We will be ministering and serving in the Collegio Jesus Salva (our sister school in Guatemala). As a Short-Term Missions Team we will be ministering to the student body. We will sing with students (in English and Spanish), share our testimonies, play Bible Trivia with the students and communicate Biblical truth through short dramas. We will also be ministering in local churches in the village of San Andreas. In whatever we do, we want to be means through which the truth about Jesus Christ and His great love can be communicated in our words and actions.

We will also be involved in a work project while we are there. Last year the 2008 Short-Term Missions Team help build a Basketball Court (which is completed and in full use). This coming year we could be building a retaining wall around the Basketball Court or we could help construct the second floor of the existing school building. By being involved in a service project, we can visibly show our Christian Guatemalan Brothers and Sisters how much we love and care for them.
