

This summer, we are excited to take our campers on an unforgettable journey Around the World! Each week, children will explore a different continent through activities that highlight unique cultural traditions and experiences. From textiles and multimedia to science and dance, our campers will take part in meaningful "Big Projects" that unfold over several days - allowing them to truly immerse themselves in designing, creating, discovering, problem-solving, and more.

As always, we're introducing brand new activities and field trips that are sure to get children moving, laughing, and learning. We're also bringing back our popular favorites like movie days and fun beach days, summer classics that our campers look forward to every year. We know Kids Club Summer Camp 2026 is going to be memorable!

While summer learning loss can be a concern for many families, our program thoughtfully integrates daily devotionals, circle time, games, and challenges that incorporate Math, English, French, and Science, helping children stay sharp and confident in their skills throughout the summer.

Our certified, energetic, and experienced staff are passionate about creating a safe, engaging, and supportive environment. Through exciting, hands-on themes and adventures, they build meaningful connections with campers while ensuring their health, safety, and overall well-being.
